RE: Final Permit, Colorado Discharge Permit System - Stormwater
Certification No. : **COR-040054**
Sunnyside Gold Corporation - Mayflower Mill
San Juan County

Local Contact: Larry Perino, Reclamation Manager
970/387-5533

Dear Sir or Madam:

Enclosed please find a copy of the new permit and certification which have been re-issued to you under the Colorado Water Quality Control Act.

Your old permit expires on September 30, 2006. This is a renewal to the permit, and replaces the old one. See page 1 of the Rationale (the pages in italics) for a summary of the minor changes to the permit.

Your certification under the permit requires that specific actions be performed at designated times. You are legally obligated to comply with all terms and conditions of the permit.

Please read the permit and certification. If you have any questions, contact Matt Czahor at (303) 692-3575 or Nathan Moore at (303) 692-3555.

Sincerely,

Kathryn Dolan
Stormwater Program Coordinator
Permits Section
Water Quality Control Division
